EDUCATION

Chennai Institute of Technology **Sep 2025 – May 2029**
Bachelor of Technology in Artificial Intelligence and Data Science *Chennai, Tamil Nadu*

PROJECTS

Terminal AutoPilot Pro – Agentic AI Terminal Automation | *Python, FastAPI, Gemini API, JavaScript*

- Built a multi-agent AI system with Planner, Safety, Command, Executor, Verification, Reflection, and Memory agents that converts natural-language goals into validated terminal workflows.
- Implemented a safety layer with low, medium, and high risk levels that blocks dangerous commands (e.g., `rm -rf`, `shutdown`), and an executor using `subprocess` with log capture and status codes.
- Added a self-healing reflection loop (Gemini API) that analyzes failures and suggests fixes, with JSON workflow memory.

CreditSense AI – Credit Risk Assessment System | *Python, Flask, scikit-learn, pandas, NumPy, JavaScript*

- Developed a web application that classifies loan applicants as Low Risk or High Risk with a confidence score, using a scikit-learn pipeline served through a Flask API (`/predict`, `/metrics`).
- Compared Logistic Regression, Decision Tree, and Random Forest models; the auto-selected Random Forest achieved **89.25% accuracy** and **85.52% F1 score** on a held-out 20% test split of a synthetic dataset.
- Built a responsive frontend with an animated risk gauge, input validation, dark mode, and a live model-performance panel.

WaterWise ML – Smart Water Leak Detection System | *Python, Flask, SQLAlchemy, scikit-learn, Chart.js, Bootstrap*

- Built a full-stack monitoring platform that uses Isolation Forest for anomaly detection and Linear Regression for next-hour and next-day usage prediction across multiple water zones.
- Implemented a rule-based and ML alert engine (high flow, leak, night usage, budget alerts) with real-time Server-Sent Events, a live dashboard with anomaly heatmap, budget planner, and zone health scores, backed by a 20+ endpoint REST API and SQLite.

MeetingOS – Meeting-to-Execution AI Workflow System | *Python, FastAPI, spaCy, SQLite, JavaScript*

- Built an offline NLP pipeline using spaCy and dateparser that extracts tasks, owners, deadlines, and priorities from unstructured meeting notes.
- Designed a multi-agent backend with escalation, audit, and decision agents for SLA monitoring, overdue-task escalation, workload analysis, and an audit trail in SQLite, plus a single-page analytics dashboard.

EXPERIENCE

Cyber Security Intern – Codec Technologies Pvt. Ltd. **May 2026 – Jun 2026**

- Completed a 1-month AICTE and ICAC approved cyber security internship program listed on the National Internship Portal.

Cyber Security Intern – Thiranex **May 2026 – Jun 2026**

- Successfully completed a 1-month cyber security internship and received a verified certificate of achievement.

Virtual Intern – Eduskills

- Completed virtual internship courses: **AI-ML by Google for Developers** and **Ethical Hacking by Eduskills Academy**.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, HTML, CSS, SQL.
Frameworks and Libraries: Flask, FastAPI, SQLAlchemy, Pydantic, Bootstrap, Chart.js, pandas, NumPy.
AI / ML: scikit-learn, spaCy, Google Gemini API, Random Forest, Isolation Forest, Logistic Regression, Linear Regression, Decision Tree, NLP, Multi-Agent Systems.
Databases and Tools: SQLite, REST APIs, JSON, Git, GitHub, Server-Sent Events, Uvicorn, Gunicorn.
Core Areas: Cyber Security, Ethical Hacking, Data Science, Machine Learning, Cloud Fundamentals.

CERTIFICATIONS

Python Essentials 1 – Cisco
Python Essentials 2 – Cisco
Cloud Practitioner Essentials – AWS
Introduction to Cybersecurity – Cisco
Introduction to Data Science – Cisco
Introduction to Modern AI – Cisco

ACHIEVEMENTS

- **Semifinalist** in ET-AI Hackathon 2026; solved **500+ problems** on LeetCode.
- Participated in Student Hackpad 2026 and Sustainable Hackathon 2026 – Canadian University Dubai.
- Participated in DevFusion 2.0 – The Developers Hackathon, organized by Enginow.

VOLUNTEER EXPERIENCE

- **Content Writer** – Coffee House (Literature Club of Chennai Institute of Technology).
- **Research and Innovation Team Member** – Entrepreneurship and Development Cell, EDC (Entrepreneurship Club of Chennai Institute of Technology).
- **Member** – Web3 Madras Community.
